build a house**

Stien and Hemlock, as they go through
Rum Wood, comes across tyr, standing
above Xaiven, who is lying on the ground,
with claws yelling at tyr to explain

- tyr says he didn't mean to hit them,
that hard.

- No blood, Stien examines tyr's weapon,

as we search, **Nathan** runs up to us, explaining
that **Rekan** has lost his shit.

We collect the others on the way back,

We get to the Bar, and Find Rekar Dead,
with the Former Captain with his Gun drawn,
over the Shot, Unconscious Body of Rekar.

I Stabilize him, Heart Saver, Tugon, and
Dorian, and ask Stien to tie him up.

Craigy Runs In, Saying Olivia Suddenly
Dropped Dead, I Send Hemlock to get
her Body.

Someone Cast Dominate on Rekar? when?
why?

I assumed Gwen dying caused some control
to break, not something new? maybe some
Contingency?

also assuming some Life Link or Sharing
Between Rekar and others.

Honace, the Alcoholic Rat, is also dead
under similar conditions.

After a lot of Chatting, we explain
Roughly what happened with Gwen.
