- We are still on a boat, a sinking one in a storm at that. I can barely swim

I Guess that war Fan has Symbols of Norgonber?

Hemlock dislikes the Shield I made, I'll remember this

Last Pitch attempt to save these two, see if they can hear the call of redemption
- NOPE. Still won't listen

a Guard tries to keep us here, won't listen to our requests to pass

After that, we head upstairs to the Deck, avoiding the loose cannons and shells

Stien says the ship is in Disrepair and He has no respect for them. I Guess? Sure.

The ship is being attacked by water elements, and the ship is breaking apart

as the ship sinks, I cast Light on myself
hopefully we will be found before we drown

I hit the water and that's it, I go to nap

Hemlock and Quelenna wake up on the Beach,
Sien and I are passed out

Quelenna Prays me out of the sea
and I wake up

Let's make everything clean

the ocean tastes really gross for something so
pretty

I don't see anyone else here.

We head off the beach in order to find shade,
where we see a trail lead off into the trees

Quelenna, after Hemlock says that these
Coconuts! are edible and have water

I want to explore the trail, and well, this might
be a cannibal island...!!

Mr Stabby and the Sprite go ahead of
Hemlock and I to scout as we go down
the path

they find a camp! that's good, I
think?

It's full of bones... some of them seem
humanoid... well, I guess we know it's
cannibals

Oh they have an ^{arm} in a crate of
rotting Jerky. the Gnome arm was here.
the Gnome was here?

I kicked the Blood-water Gun and I
guess that summoned like, huge Bugs?
Centipedes

Oh no they are hostile.
they Bit the Cat. It looked Bad, But
Hemlock seems Fine?

Oh they are coming for me please
don't Bite me MR. Insect

Maybe I can offer them the Flesh?
It's not Great But it's Better than
the Cannibals eating it.

Only one of them went for it. 11

Hemlock killed one
Stien killed another

Okay, they listen, and leave the third
one Be.

It's Late, we need to rest

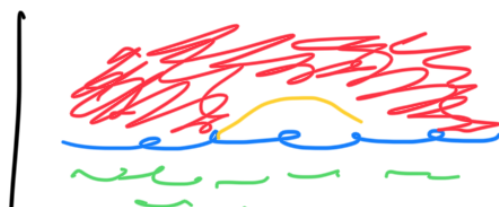

Stien has had too many Boring Convo's
while serving His old Master

Back at the Beach, we Build shelter out of the
wreck.

as the sun sets, I paint the scene as the
sun sets over the Emerald colored sea

In the night, Quelenna is
speaked by a huge Beetle,

While reacting to that she sees a person
Krouched in the woods staring at our shelter

Then she gets hit by a dart, It is poisoned

She wakes us up.

Fr:ch, more aggression !!

Maybe I can Bribe them away with something

No, Stien tries to end them as they flee
they escape,

We see smoke to the north... I wonder who
it could be...
