Quellen pulled me from the ocean

Found Cannibals - found the Gnomes arm

Beach sunset!

Am Bush....

after the cannibal escapes, it becomes quiet,
But we see **Smoke** from the north west.

We decide to move South, along the coast

It's Chilly. But I don't want to stay here

Moon lit Beach though...

as we go along, we find a odd tent...

Stien and Quel. go scouting the tent
- Newly put up, But the supplies
are old and Rotted

- there is a cave on a cliff under
the cave

Hemlock and I go gather berries as gifts
no one to give them too though

they have a life boat, But it's old and rotten....

We try to camp here, But when hemlock
wakes me, he tells me we are watched

I see two more **Cannibals** in the **trees**
Using Bull horn, I scare them off.

~ I Build a Camp Fire, and have Berry Stew
For everyone ~ ☺ ☺

As we wake up, I can't to look at this Boat.
No, it would take Building a whole new boat.

I Give Quelema **Light** to explore the **Cave**.

 - Figures worshipping a singular taller Figure
 - **Seems Familiar...**

- Further in, she Finds a cave,
and it seems going Further in.

to swim

the island

a mythical outpost of thieves and outlaws
